

## Student Interest Sought! in OCS Guard Program

A pilot program of a college officer candidate school similar to ROTC offered at other schools is being considered by the Northwest Missouri State College administration and officials of the local unit of the Missouri Army National Guard.

The program, if adopted, is designed to begin during the second semester of a man's sophomore year and continue until his graduation when he would have completed most of his obligation and be commissioned a second lieutenant in the Army National Guard. If a candidate completes the program successfully, his only active duty requirement is the initial basic training of 10 weeks and the nine weeks at the branch basic course after graduation. Both of these periods can be sandwiched between school sessions in the summer, making this program particularly suited for education majors.

Even if a student drops from the program and completes six months training, he may still apply for re-entry in OCS at a later date.

A questionnaire is included on Page 5. Interested sophomores are asked to fill it out and turn it in at the Armory before Feb. 22. A meeting will be held at the Armory on that date, beginning at 7:30 p. m. to explain the program to

those wishing more information about the program.

Lt. Jack T. Pitzer will be in the Den Wednesday afternoon and from 11-12 and 1-2 Thursday and Friday to confer with interested sophomores. More details will be presented in the *Missourian* next week.

## Superior Students to Have Honors Program Opportunity

A recent decision by the Faculty Council created an Honors Program for Northwest Missouri State College.

The purpose of the Honors Program is to identify superior students and increase their educational opportunities. A solid basis for high achievement in the professions, in graduate study, and in public life is the goal, according to a report from Dr. Leon Miller, dean of instruction.

Through independent study and exemplary class environments, the program is designed to challenge the academically superior student to become more critical and appreciative of his specialty. Honors students shall be listed separately on the graduation program, and the notation Magna Cum Laude is to be inscribed on the degrees awarded to the students completing the curriculum.

## Crowning, Dedication, Honors Featured at Annual Tower Dance

Miss Dianna Brown, sponsored by Tau Kappa Epsilon fraternity, was crowned the 1966 Tower Queen Saturday night as the highlight of the Mardi Gras festivities.

Miss Lorna Stevens, sponsored by Alpha Sigma Alpha sorority, and Miss Celia Thompson, sponsored by Phi Mu fraternity, were the queen's attendants. The three queen candidates were chosen by judges from 20 girls following formal and informal presentations. They were voted on by the student body Friday.

Jerry Taylor, student body president, crowned the queen and bestowed the royal honors. Bob Bobsch was the master of ceremonies for the dance and intermission program.

Miss Wava Tackett, Tower editor, formally dedicated the

1966 Tower to Kenneth Thompson, industrial arts instructor. President Robert P. Foster presented to Howard Ringgold, yearbook advisor, a barometer with the inscription, "Tower of Strength for 20 Years," in recognition of his 20 years as adviser to the Tower. Miss Tackett also introduced the members of the yearbook staff.

Cardinal Key tapes were announced by Miss Brown. They include Dorothy Hardy-

man and Sue Miller, juniors. Senior honorees of the month are Virginia Bright, Dotty Ray, and Miss Tackett.

Following the intermission, Queen Dianna Brown and her escort Phil Burmeister, led the first dance. Miss Stevens was escorted by Woody Southard, and Miss Thompson by Dean Jack Lasley, substituting for Bob Marek, who was playing with the Bearcats at Springfield Saturday night.

## Miss Diana Brown Crowned Queen of College Yearbook

Dianna Brown, 1966 Tower Queen

Miss Dianna Brown, MSC junior from Hamburg, Iowa, who was chosen 1966 TOWER queen, serves as president of four campus organizations and holds executive offices in two other organizations.

Miss Brown, crowned at the Saturday night Tower dance, is president of Alpha Sigma Alpha sorority, Cardinal Key Honor Society, Roberta Hall Dormitory Council, and the Young Democrats. She is treasurer of the Daughters of Diana, and secretary of the Student Union Board Executive Council. She is also a member of the Book Club, is serving on the Religious Emphasis Week committee, and has served on the Homecoming committee.

Miss Brown is majoring in English and minoring in mathematics and library science. After her graduation she plans to teach and hopes to work on her Master's degree.

## Roles Assigned In Patrick Comedy

Open tryouts were held last week for John Patrick's comedy "Everybody Loves Opal" to be presented at 8 p. m., March 16, 17, 18, in the main auditorium of the Administration Building.

Students cast in the play in-

clude Eddielea Roe, Opal; Phylliss Zwank, Gloria; Richard Heinz, Brad; Dan McLaughlin, Sol; Jerry Eisenhour, Doctor; Tom Laville, Policeman.

Dr. Ralph Fulsom, chairman of the Speech and Drama Department, will be director of the play, which is to be presented in conjunction with the Spring Festival of Arts.

## New Staff Members Start Work at Northwest State

Roy L. Walker and Oscar Kirschner

Three new staff members, who have been working in Missouri and Kansas schools, assumed their duties at Northwest Missouri State College at

the beginning of the second semester.

Oscar Kirschner, formerly of St. Joseph, is the new assistant dean of administration.

The instructors who will start their work at MSC Sept. 1, 1966, include Mrs. Luther Belcher, Mrs. Mack Jackson, Mrs. Moss, business; T. A. Chandler, Mrs. A. F. Handke, Paul D. Jones, English; R. A. Govier, foreign language; Frank McHan, biology; Dr. Gene Russell, education, and H. G. Russell, industrial arts.

Joy L. Walker, former school administrator in Perryville and Dexter, Mo., is a new member of the faculty in the Division of Education, and Dr. Lawrence E. Zillner, is a new counselor trainer.

Before coming to MSC, Mr. Kirschner was an instructor in the mathematics department at Central High School, St. Joseph, for eight and one-half years. A graduate of MSC, he received his Master's degree from the University of Missouri.

His family includes his wife Verna, a graduate of the University of Kansas; and three children, Michael, a first grade student, and Kristi, enrolled in kindergarten, Eugene Field elementary school; and 4-year-old David at home. The

Dr. and Mrs. Donald Sandford

## Dr., Mrs. Donald Sandford To Present Public Recital

Dr. Donald Sandford, violist, and Mrs. Sandford, pianist, will be presented in a faculty recital Wednesday at 8:15 p. m. in the Charles Johnson Theater of the Olive DeLuce Fine Arts Building.

Their program will include "Notturmo in D Major, Op. 42," Beethoven; "Sonata in A Minor," Schubert, and "Sonata," Bliss.

Doctor Sandford, a graduate of Wayne State University and the University of Michigan, has been a music instructor at MSC since 1950. He teaches music history, music appreciation, and string instruments. A soloist in the St. Joseph Orchestra, Dr. Sandford is the principal violist of the Brevard Festival Orchestra, Brevard, N. C. He is also the founder and director of the Inter-City String Orchestra, which presented a concert here last fall.

Mrs. Sandford, an MSC music instructor since 1954, was

graduated from Western College for Women and the University of Michigan. A piano soloist for the St. Joseph Orchestra, she will be featured this spring when Paul Doktor presents a recital at MSC and another in Pella, Iowa, Mar. 16-17.

## Freshman Team Ranks Fifth in Cattle Judging

The freshman livestock judging team ranked fifth in beef cattle and eighth in hog judging at the Fort Worth Stock Show Judging Contest in Texas last week.

Seventeen teams from colleges and universities throughout the Southwest competed in the contest. Team members from MSC were Barry Whitehill, David Norton, and Michael Thompson. F. B. Houghton of the agriculture department accompanied the group.

## Silver Creations By Art Students Displayed at MSC

On display at the Fine Arts Building the past two weeks has been an exhibit of students' silver work creations.

The selected work of about three-fourths of the metal work and enameling classes from the fall semester will remain on display until tomorrow, according to Maurice W. Silver, fine arts instructor.

An unusual factor in the classes was that there were more than one-half of the 19 enrollees who were non-art majors or minors.

Mr. Silver theorized that some who took the course as an elective figured it for "an easy course." He explained that this did not detract from the work which the students did.

"The class probably proved more work than they anticipated—involving much laboratory time for making their projects as well as a great deal of time for designing. Also there was the time needed to finish a piece after it was cast," Mr. Silver stated.

Mr. Silver's explanation for the reason several students did not complete the "easy" course was: "The cause for flunking is almost always laziness. Students wait until the last minute to produce their four required projects. Also, absences may be the reason," he said.

For the student who passed and enjoyed the class, however, there was a personal satisfaction of having produced artistic, well-designed articles to wear. Many of the enrollees created pendants and rings while others made pins.

Inspiration for designs had to come from nature. A design was not to be copied but "imaginized," according to Mr. Silver. From the imagined, abstracted reality, the student created his own original design.

## Sigma Tau Fraternity Inducts New Members

Twelve new members were initiated into Theta chapter of Sigma Tau Gamma social fraternity at the formal initiation ceremonies preceding the close of last semester.

John Yost, Falls City, Neb., was selected outstanding pledge by active members. Other initiates include Mark Yehle and Bob Westfall, Maryville; Dave McKee, Stuart, Iowa; Frank Teale, Panora, Iowa; Gary Siletto, Guthrie Center, Iowa; Glen Fankhauser and Allan Schneider, Savannah; Larry Matiyow, Roseville, Mich.; Ed Wiskowski, St. Joseph; Mark Schultz, Council Bluffs, Iowa; and Bruce Horrell, Carbondale, Ill.

## Museum Director to Present Illustrated 'Wildlife' Talk

Roy Coy, St. Joseph Musician Director

The Maryville Audubon Society will feature an illustrated program, "Waters and Wildlife" given by Roy Coy, director of the St. Joseph Museum, at 7:30 p. m. Thursday in Horace Mann Auditorium.

Mr. Coy will present a film which he spent more than seven years producing. He offers his audience a chance to take an exciting trip down the Missouri and Mississippi Rivers to the Gulf of Mexico, and over to the Florida Keys.

His underwater photography catches a variety of interesting fish. Alligators, too, are

seen close-up. A highlight of "Water and Wildlife" is an adventure deep into the river grass, the Florida Everglades aboard an air boat which faithfully flies over the surface, penetrating areas where regular boats cannot go.

Mr. Coy is a lecturer for the Audubon Screen Tours. He has also become an authority on the Pony Express and is the director of the Pony Express and St. Joseph Museum. He has followed the Pony Express Trail as nearly as possible putting on film what one can see along the trail today.

The Maryville Audubon Society is pleased to present a speaker of the calibre of Mr. Coy. The response among Maryville citizens and students will help determine the future of bringing other outstanding nature programs to this area. Everyone interested, whether a member or not, is encouraged to attend.

## Engagement Announced

Mr. and Mrs. Edward D. Wiley, Quitman, have announced the engagement of their daughter, Jean Marlene, to Gordon Keith Mowry, son of Leslie Mowry, Maitland, and Mrs. Gene Kaufman, Graham.

Miss Wiley is a junior at MSC.

## State IA Group To Convene Here

The Missouri Industrial Arts Educators from the five state colleges, Lincoln University, and the University of Missouri will be holding their annual meeting at Northwest Missouri State College today and tomorrow.

The subject to be considered at the dinner session this evening will be "Desirable Outcomes as a Result of State Supervision of Industrial Arts." Two meetings are scheduled for Saturday morning.

At the 8:30 a. m. section the subject will be "Responsibilities of Teacher Education Toward Stronger Professionalization of Graduates." The educators will be concerned with "Industrial Arts and Current Federal Legislation" at the 10 o'clock session.

Doyle Kemper, Springfield, is permanent chairman of the state organization, which meets in turn at each affiliated college. Dr. Peter Jackson is chairman of local arrangements.

## New Major Added To MSC Program

A major in geography leading to a BS or a BA degree is to be offered at Northwest Missouri State College.

The addition of several courses will make a major or minor leading to a BA degree in humanities and philosophy possible.

These additions, as well as several other changes in the General Catalog, were approved by the Faculty Council at a meeting last week. A few courses have been added, changed, and dropped in the History Department and the Division of Business. A methods course also has been added to the work offered by the Division of Social Sciences.

AS LIAISON FOR ARTS, Mrs. Joe Jackson IV, a talented artist and new student in MSC art classes, will represent the Performing Arts Foundation in the Maryville area.

## Mrs. Jackson Named to Liaison Post Of Regional Performing Arts Group

A post-graduate enrollee in the Fine Arts Department, Mrs. Joe Jackson IV, Maryville, has recently been named to the regional committee of the Performing Arts Foundation, Kansas City.

Mrs. Jackson was graduated from Stephens College, Columbia, and received her Bachelor of Fine Arts degree at the University of Texas, Austin. She has also done graduate work at the University of Missouri and in 1964 won the "best in show" award at the Clarinda, Iowa, art show for a casein painting entitled "Balloon Boy."

## ACE to Consider Role Of Parents, Pressures

"The parents' role in relieving pressures on children" will be the program topic for the Association for Childhood Education meeting, beginning at 8:30 p. m. Wednesday.

The organization held its annual Valentine party Feb. 2 in the kindergarten room at Horace Mann Laboratory School.

NEW RECORDINGS are being checked by Sedletzeck, Ron Wagers; back row: Tom Mann, the incoming officers and sponsors of KDLX, Mann, Robert Seipel, Doug Summers, and front row: Lois Garreau, Miss Mary Jo Jim Shoning.

## KDLX Staff Elects New Board, Resumes Night Broadcasting

Doug Summers, Excelsior Springs, recently was elected president of KDLX Radio, which resumed programing last Sunday.

Programs will be on the air Sunday through Thursday from 7 p. m. to 12 p. m.

Other officers chosen are Jeff Andrews, vice president; Linda Briton, secretary-treasurer; Lois Garreau and Jim "Grub" Shoning, program directors; Tom Mann, news director; Jack Schrimsher, technical director, and Ron

Wagers, parliamentarian. The eight new officers will take charge of the radio station Sunday.

Miss Mary Jo Sedletzeck, faculty adviser for KDLX, announced that the station will hold an open house in the near future. New equipment is being installed in the newly completed studios at the east end of the power plant.

"If all goes well we'll have the new equipment going in two weeks," Schrimsher stated. "At present the station is using the same equipment that was used last semester."

The new schedule of programs has been released by Miss Garreau and Shoning. Starting with Sunday night, the D. J.'s will be Bob Kinder, Andrews, Gary Hobbs; Monday night, Wagers, John Bas-

## TV Company to Hold 'Talent 66' Auditions In Johnson Theatre

Auditions for "Talent 66," a series of statewide television programs, will be held at 8 p. m. Thursday in the Charles Johnson Theater of the Olive DeLuce Fine Arts Building.

The professional showcase is being produced by Corinthian Special Productions, Houston, Tex., for Southwestern Bell Telephone Co. Performers, including singers, dancers, musicians, and groups presenting variety acts, will be paid professional fees. The hour-long program, which will be broadcast in May, will feature campus scenes and biographies of selected colleges and universities.

Students interested in an audition should register at the Field Service office. They need to provide their own accompaniment.

## Baptist Student Director to Speak At Annual Religious Emphasis Week

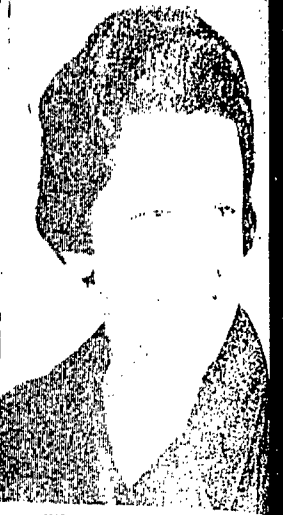

As Baptist Student Director of Radford, Va., College, a school for women, the Rev. Nancy Ann Howard should have several pointed remarks to present pertaining to the Religious Emphasis Week theme, "Thy Neighbor."

In addition to the Reverend Howard, other resource personnel for the week, Mar. 6-10, include Dr. Claude Evans, chaplain of Southern Methodist University, Dallas; the Rev. Darrell Yearney, United Christian Campus Fellowship pastor, Kansas State College, Emporia, and the Rev. William Love, chaplain at St Gregory's College, Shawnee, Okla.

Besides being director of Baptist student activities at Radford, the Rev. Howard has served as a research technician at Emory University, Atlanta, Ga., and at the University of Louisville, Ky.

Now working for her doctorate in religious education, the Rev. Howard's education includes a BA in Biology-Chemistry from Wesleyan College, Mason, Ga., and a Master of Religious Education degree from Southern Baptist Theological Seminary, Louisville.

Before Castro took over Cuba, the Rev. Howard was a

The Rev. N. A. Howard

summer missionary in Cuba. She has also traveled every state east of the Mississippi.

The youth leader, well-versed in race relations, is a member of Protestants, Catholics, and Jews on Religion, Race, Louisville, and the Human Relations Council, Radford. She also belongs to American Association of University Women and the J. Women's Club.

Her special interests include bowling, tennis, golf, and singing.

## Coeds Hold Key To Hawkins' Date

Girls are urged to take advantage of the opportunity ask the boys to the action planned for Sadie Hawkins Week, Feb. 21-25.

The final event will be a dance in the Blue Room from 8-12 p. m. Friday. Dress will be informal. The girls are asked to make boutonnieres their dates from carrot tops, radishes, or some type of vegetable. A prize will be awarded for the best creation.

Tickets for this "drag and stag" dance will be sold at the door or may be obtained from an AWS representative at the price of 50 cents per person.

AWS Penny Night originally scheduled for Feb. 16 will now be during Sadie Hawkins Week on Wednesday evening.

Watch next week's paper for complete details of Sadie Hawkins Week.

ROYAL HONORS were bestowed on Queen Dianna Brown at the Mardi Gras Tower dance held Saturday night in Lamkin Gymnasium. Shown with her are Woody Southard, Lorna

Stevens, Jerry Taylor, student president; Phil Burmeister, Celia Thompson, and Dean Jack Lasley. The three coeds were finalists in the Tower Queen election.

## Kirksville Cast Pleases Audience With Symbolic Version of 'Firebugs'

By Marjorie Hitchcock  
The College Players from Northeast Missouri State Teachers College presented Max Frisch's revolutionary play, "The Firebugs," here Feb. 3 as part of a dramatic production exchange between Missouri state colleges.

J. G. Severns, director of the play, was successful in impart-

ing his interpretation of the symbolic play to the audience. "The Firebugs," symbolizing revolutionaries, can be considered social satire or political commentary. The story concerns Biedermann, played by Larry Fortney, who fears any change in his life or surroundings that could be effected by the firebugs.

That is the reason that he and his wife, characterized by Ginger Nitti, allowed the uninvited arsonists to stay in their home and use it at their pleasure. Mike Bourne and Garry Cox enacted convincingly the roles of Schmitz and Eisenring, the firebugs who symbolized the evils of society.

The outstanding work of the cast and the production staff made the play most interesting to view. The use of a chorus of firemen to help communicate Frisch's unconventional and avant-garde message was the strongest dramatic device in the play.

The simple constructive scenery played a primary part in suggesting the idea of the drama to the audience. Lighting techniques and the scenery change during the fire finale made it one of the most effective scenes of the play.

Although each player gave a creditable performance, several deserve special commendation. Forney, as Biedermann, the "Everyman" who fears change, projected his role well throughout the play. Bourne as Schmitz was especially effective in his interpretation of the harmful arsonist.

Paul Oakley, leader, and his chorus of firemen added perfection to the production with their perfect timing, gestures, and side comments.

## New Staff

(Continued from Page 1)

Kirschners reside at 510 South Main.

Mr. Walker teaches classes in secondary school organization and administration and basic theory of education. He also supervises the work of students who are teaching off campus.

In addition to his past experience as a school administrator, Mr. Walker has been an instructor in the Ladue school of St. Louis County and has served in the Sikeston and Haiti school systems. He has a BS degree from Arkansas State College, Jonesboro, and a Master's degree from Peabody College, Nashville, Tenn. He expects to complete his doctoral studies at the University of Missouri.

Mr. Walker and his wife, Norma, who attended the University of Missouri have three children, Melody Sue, fourth grader, and Kimberly Anne, first grade pupil, at the Eugene Field School, and Roy Cameron, age four, of the home, 621 East Fourth.

Doctor Zillner, who has served as a high school counselor at Pittsburg, Kas., received both his BS and his Master's degree in Education from Kan-

Doctor Zillner

sas State College, Pittsburg, and holds a DEd degree from Colorado State College, Greeley.

Doctor Zillner and his wife Diane, a graduate of Pittsburg State, have two children, Jeffrey, a fifth grade pupil at Horace Mann School, and Suzanne, a first grader at Eugene Field. The Zillners reside at 201 E. Seventh.

## Bearcats to Rematch Bears, Mules in Lamkin Gymnasium

After falling during the past week to the SWMSC Bears, 92-72, and the CMSC Mules, 78-49, the Bearcat basketball team faces a rugged weekend in rematches with the two teams Saturday and Monday nights.

Southwest Missouri State jumped on the 'Cats early to gain a 52-30 halftime lead. The Bearcats came within 11 with four minutes left, but Springfield poured on steam to pull out the victory.

MSC's fate was written on

the backboards and in the outside shooting of three Bears. Springfield took a 62-36 rebound edge while Jim Gant scored 22 and Danny Bolden and Jim Gummersbach gunned in 20 each.

The Bearcats' offensive spark was Dave Remund, who tossed in 27 points for his fourth game in a row with over 20 points. Marek added 11 more for the 'Cats.

Monday night the Warrensburg Mules drubbed the MSC team with excellent hitting, rebounding, and defensive play. Cozel Walker, the Mules' all-MIAA player, led the overwhelming attack.

In their rematches the 'Cats will face the Bears at Lamkin Gymnasium Saturday night and will battle the Mules here Monday night in their final conference games of the season.

Coach Dick Buckridge rates the two opponents as the finest the 'Cats have met this year but believes that a perfected effort on the part of the 'Cats could turn the tide.

"The Bears' Gant and the Mules' Walker are among the best small college players I have seen," the Bearcat mentor said.

## Food, Drug Agency To Hold Interviews

Leonard L. Blanton, chief inspector of the Kansas City office of the Food and Drug Administration, has announced that a representative from his agency will be on campus Feb. 22.

Seniors interested in government careers should make appointments through the placement service office for interviews.

## Life of Action Pleases MSC Instructors Who Create Novels, Pictures, Recipes

**A FAMILY OF MANY INTERESTS**, the Robert Nagles relax at home with their family, Sonya, Paula, Carl, and Beagle, eagerly awaiting any new, interesting, or exciting experience to come their way.

Living in a log cabin in Alaska, having seals play in their backyard, concocting novel recipes, and collecting original paintings are just a few of the treasured memories and activities of Mr. and Mrs. Robert Nagle, new instructors in the social science department at MSC.

Mr. and Mrs. Nagle were married in Anchorage, Alaska, where they lived for a time in a log cabin on the coast near Kenai. During this time they often enjoyed watching hair seals play in their backyard. Later the couple lived in Mexico for a year and traveled in Canada.

Mr. Nagle has traveled throughout the world, both privately and in connection with his three years of work in the US Army Intelligence. He attended New Mexico Highlands University where he received degrees in philosophy, political science, and social science. After receiving these degrees, both Mr. and Mrs. Nagle worked on their doctoral

studies at the University of Nebraska until Mr. Nagle transferred to the University of Miami.

Mrs. Nagle attended Wayne State University, Detroit, and did graduate work at the University of Chicago and at New Mexico Highlands University. Presently she holds degrees in sociology and social science and is working on her doctorate in clinical psychology. To fulfill a part of the requirements in this field, she has done internships at the State Hospital in Las Vegas, N. Mex., and at the Veterans Hospital in Lincoln, Neb.

Among Mrs. Nagle's varied interests are painting and drawing. She does surrealist and semi-abstracts in water color and oils and collects original paintings by various artists. Another one of her hobbies is singing and listening to folk ballads.

Mr. Nagle has worked extensively in the newspaper field. He derives a great deal of pleasure from reading old books that he has collected, especially issues

of the Encyclopedia Britannica. He also reads and writes poetry, some of which has been published, has written 12 novels, and is working on another. Other hobbies include listening to music — he was a drummer in a Dixieland band while in Alaska—and collecting old cars.

A culinary artist in unusual dishes, Mr. Nagle has created many recipes. In addition, he is planning to get his pilot's license and hopes to obtain a biplane. Mr. Nagle helped to organize the Anthropology Club on campus, and he and his wife host a discussion group on philosophy.

The Nagles have three children, Carl, 6; Sonya, 3; and Paula, 2. All are much interested in Bagel, their toy poodle, shaped like a dashchund. Schlamel, their cat, part Persian and part lynx, was lost while en route to Maryville, but since she had her own passport, who knows, maybe she just decided to travel.

## Peace Corps Sets Tuesday as Date For Tests at MSC

Any one interested in Peace Corps service may take the Peace Corps Placement Test at 7 p. m. Tuesday in Room 121 of the Administration Building.

Those persons interested should first notify the office of the Dean of Students prior to the testing date in order that adequate materials may be obtained. Students must first complete a questionnaire available also in the Dean's office.

Lasting approximately two hours, the test is not one of correct and incorrect answers. It is a survey, designed to determine individual strength so that qualified Peace Corpsmen may be secured.

Juniors who receive appointments may have the opportunity to train the summer before their senior year, Dean Charles E. Koerble advised.

## Late Student Transfers Should Have Handbooks

Late enrollees and transfer students should have in their possessions a copy of the Student Handbook.

This booklet is published by the Student Senate and the college administration. It is important that all students read and know the contents of this handbook containing the campus regulations for which they will be held responsible. Ignorance of these regulations will be no excuse for failure to abide by them.

Other important regulations may be found in the Motor Vehicle Regulation Pamphlet. Both of these may be acquired during office hours in Room 119 of the Administration Building.

## Takes Tap Members For Diana's Daughters

Daughters of Diana tapped six new members at the annual TKE Christmas formal.

The new initiates are Susan Cisco, Joan Gillespie, Judy Miller, Jo Ann Montgomery, Colleen Nelson, and Sue Shriver.

New officers elected for the coming year are Dotty Hardman, president; Judy Miller, vice president; Sue Shriver, recording secretary; Jo Ann Montgomery, corresponding secretary; Sheila Schieber, assistant corresponding secretary; Dianna Brown, treasurer, and Susan Cisco, historian.

Daughters of Diana, a new organization on campus, has been founded by Delta Nu Chapter of Tau Kappa Epsilon social fraternity. It is composed of undergraduate women who have shown a sincere interest in TKE.

In general, the Dianans lend an atmosphere of grace to fraternity events. The members help during rush week, serve as hostesses at parties, teas, and other social functions. The Daughters of Diana also help to orient the new pledges and act as "big sisters" to them. Currently, the organization is making aprons and monogrammed dish towels for the fraternity house.

## Officers to Be Elected By Audiovisual Leaders

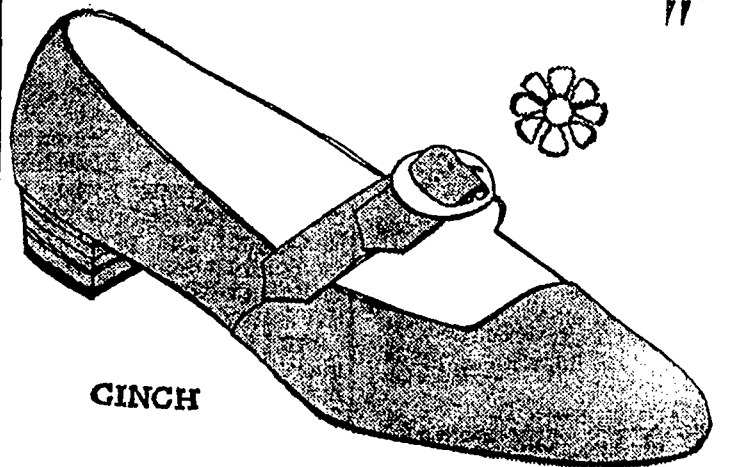

The Northwest Missouri Audiovisual Association will hold a regular meeting Monday at 7:30 p. m. at which time officers will be elected.

After the business meeting, Luke L. Boone, director of the Instructional Materials Bureau, will make a presentation entitled "Characteristics and Use of the Overhead Projector."

## Maryvillians . . .

### Tell the World

Citizens of Maryville, unite!

All you have to lose are your chains!

All you have to gain is money and prestige, growth and progress. That is, you break the self-imposed chains. The links consist of quiet tongues about, apathy toward, and disinterest in Maryville's most potent asset: MSC.

What other school in Missouri is building two dormitories, a cafeteria, a science building, new agricultural buildings and remodeling its Union Building? What other school in Missouri is going to send two students to live in a foreign country during the summer before their junior year? What other Missouri College has a wrestling team ranked better than ninth nationally? What state campus is more beautiful than MSC?

But don't tell anyone.

Just continue to be quiet, apathetic, disinterested—unless you want to join the revolution, unless you want to promote MSC, unless you want to cooperate in boosting the college's and Maryville's efforts to move forward.

The best salesmen a college can have are its students. The next best are the community citizens who realize how important the college is to them and how important they are to the college.

If a man from Kennett, Mo., or Davenport, Iowa, or Wamego, Kas., asks a Maryville man about the existence of a college in Maryville, will the answer be an indifferent "Yeah"? Will the Maryvillian apologize when he explains that his son or daughter is going to MSC, not to some so-called "name" school?

Northwest State is where the action is. There are not as many parties or people as there are in Columbia or Lawrence. The action here is academic, although not completely. Is not that the purpose of an institution of higher learning?

But some people in Maryville, it seems, couldn't care less.

At times, some Maryvillians appear to give not even a darn. Do the citizens, specifically the merchants, ever hold an appreciation week for all the college business? Do the citizens visit the campus, look in the classroom, talk with the student? Do the citizens of Maryville realize that our college and, in turn, our community can be just as great as we want to make them?

Will you unite? Will you enlist? Will you stand up and be counted?

—Bob Bosch

### The Book That Walked Away

Science is one of the fastest growing fields today. Yet one invention seems to be in existence which this writer has not previously heard about. This creation is a book with legs!

Unfortunately scientific inventions cannot be held responsible for the disappearance of books and notebooks in the Union or for the strange whisking into thin air of some clothes and other articles in the dormitories. They may have walked away but not on legs of their own.

It is a monstrous shame when a few people of college age develop the habit of borrowing for keeps. Probably 99.9 per cent of the students on this campus are honest. Still that other .1 per cent get by with deeds which hurt all of us.

Those students who don't mind borrowing by these means are hurting themselves more than they do others, but isn't it a shame that a few people can cast a shadow on the image of a school that is moving forward in so many ways?

Saddest of all is that they are not truly getting by in their own building — they are only building their foundations of character on sand.

—Lynette Cole

#### PEM Club to See Films

PEM Club will meet at 6:30 p. m. Monday in Martindale Gymnasium. Films on physical education for the handicapped will be shown.

## Diamond In the Rough

• What does February mean to you?

February is a mosaic month of groundhogs, valentines, and birthdays. People who first saw their shadow during these 28 or 29 days include Washington, Lincoln, Edison, Chopin, Jerry Taylor, Dianna Brown, Teresa Riley, and Jeff Fuston.

Washington's birthday is actually Feb. 11. We celebrate it, however, on the 22nd of the month. Something about a calendar change. It's a fact little worth knowing.

• A big lesson worth remembering and re-remembering is one a tall man, born on Feb. 12, taught us about 100 years ago. Today we often forget that what a man is, what he can do, what he has to say are more important than what he looks like, where he came from, where he lives. Heredity, environment, appearance, education do not insure success.

Lincoln, like many people today, was not born into a rich and well-educated family, did not live in the best neighborhood nor attend the best schools, was not a physically handsome man. He was, however, a success. He was one of the gems in the history of the United States Presidency.

• Could there be cut diamonds if there were no uncut diamonds first? Would you let a Lincoln wart overshadow a Lincoln virtue? "What is a weed?" asked a man named Doctor Emerson. "A weed is a plant whose virtues have not been discovered."

What does February mean to me?

It means remember the Alamo, the Maine, Grant and Lee, Washington and Lincoln, and your girl (or guy) on Valentine's Day.

And after all, if there were no February, could there be a March?

Heartily yours,

Robertta

### Caution Given Drivers On Car Registration

Since cold weather has set in, no one enjoys walking any farther than is necessary.

Unless a car is registered with the College, however, its driver will not be allowed to have a parking place for it on campus. Also he must display the permit sticker on the windshield of his car.

Last semester stickers are no longer usable. Drivers must get new ones from Dean C. E. Koerble's office.

Suggestions for applying the permit to the windshield are: Make sure that the windshield is clean. Warm the glass with hot water before applying the sticker. Do not apply it with tape unless the doors of the car are to be kept locked at all times.

If a sticker should be lost, it is important that a report be made immediately to the dean of student's office. The car is registered according to numbers which correspond with the student's name.

Damaged or torn stickers should be replaced. There is no charge for a new one if pieces of the old sticker can be produced.

SETTING THE DINING ROOM TABLE for a formal dinner at the Home Management House are Karol Ann Knittl and Norena Harrold, graduating seniors, who recently completed four weeks of participating in family living at the house.

## Economists Practice Classroom Learning

By Karol Ann Knittl

Many Northwest Missouri State College students who travel past the red brick house at the entrance of the college are unaware of the important experiences it provides for home economics majors who live in the home for a period of four weeks.

The Home Management House represents an opportunity for these students to study the costs and problems arising in the management of a modern home and to make and execute plans necessary in conducting an efficient home within an atmosphere of gracious and well-managed family life. Home Management activities are supervised by Miss Eleanor Miller, who is serving her first year with the MSC home economics faculty.

Those who have the opportunity to visit the Home Management House note with interest the house plan, color scheme, and furnishings. On the first floor are a large formal living room, a dining room, and a modern, well equipped kitchen, as well as the director's room. The second floor of the house has four double bedrooms, a large bathroom, and a sewing-pressing room. The full basement has a laundry area, furnace room, and storage closet for flower arranging materials.

Future plans for the house include finishing a recreation room in the lower level of the house for enjoyment of the family members and for informal entertaining. Varying values and intensities of red, gold, and green are the colors used effectively throughout the house and give the viewer and the family members a home-like feeling.

During their stay in the house, the students carry out responsibilities involved in operating a home as well as the

duties of planning, purchasing, preparing, and serving foods which meet the nutritional needs of the group. They also develop standards for efficient care and management of the house and its furnishings and become aware of consumer responsibilities in selecting household supplies and equipment.

Another aspect of living in the Home Management House is the development and practice of social skills and abilities through gracious living and hospitality. Guests are frequently invited to lunch, dinner, teas, or other special activities. This experience in social relationships gives each girl the opportunity to develop refinement and social poise while acting as a hostess to others.

To carry on the responsibility of operating the Home Management House, the students work with a wide selection of electrical appliances and equipment, many of which they have never used. These serve as a means of convenience as well as a way of broadening their home-making knowledge and skills.

The coeds in the course become more familiar with the home economics majors to acquire new food tastes, and experiment with new recipes, styles of table setting and service. They really are applying their knowledge in a meaningful family situation in preparation for becoming more efficient, better informed homemakers.

A close family - living relationship develops among the various members of the house during their participation in the class. Through bridge games, coffee chats, and hours of planning and working together to accomplish all of the tasks of a home the girls develop a feeling of cooperation and friendliness necessary in any home situation.

QUICK TAKEOFF is made by Ed Smith as he starts to swim his leg on a relay after Jerry Peirce, in water, touched the pool's edge. Frank Fisher stands by, alert for his signal.

## Swimmers Reach Mid-Point, Swamp Cadets to Stand 5-3

By Bill Farrand

The Bearcat swimming team closed out its home meet schedule Saturday, rolling over Wentworth Military Academy, 71-24, and brought its season record to 5-3 with four meets remaining.

Three varsity records fell as the 'Cats captured 10 of 11 events from the cadets. Frank Fisher won the 200-yd. freestyle, breaking his old record with a 2:00.9 clocking. He also took the 100-yd. free in 53.2.

Mark Thomas took a hand's-length victory in the backstroke in a record 2:21, and Steve Conner shaved three seconds off his butterfly record with a 2:34.4 timing.

Other Bearcat firsts went to Randy Hanson in the individ-

ual medley and 500-yd. freestyle; Brian Nehlsen, breaststroke; Larry White, diving; Thomas, Nehlsen, Conner and Jon Eichelis, in the free relay, and Jerry Peirce, Ed Smith, Eichelis, and Fisher, in the free relay.

Passing the half-way point, the tankers stand at 5-3 for the season with victories over Wentworth, 70-20, and 71-24; CMSC, 59-41; William Jewell, 68-26, and Park College, 53-42. The 'Cats' three losses have been at the hands of Washington University, MU, and Emporia State.

The first two were in the first meets of the season, and except for the E-State mar, the team's slate has been one of steady improvement. Records have fallen in all but two events.

After a rematch with William Jewell in Liberty Saturday and a meet with Washburn University in Topeka next Friday, the team will face the toughest tests of the season in the Conference Championships and the Interstate Swimming and Diving Championships in Warrensburg on successive weekends.

The youthful 'Cats (nine of the eleven are freshmen) go in-

## Intramural Sports Swing to Spring

MSC's intramural programs are in mid-stream, with fall sports finished and bowling, table tennis, badminton, volleyball, smash, free throw, indoor track, softball, track, and golf left on the schedule.

Dr. Burton Richey, chairman of the Physical Education Department, stated that there has been a good turn out up to date and that he would like to encourage more student participation in the program.

He also stated, "We've had fine support from the fraternities, but there is a need for more support from the other groups."

Dennis Gates, student intramural director, is in charge of setting up the schedule. Any new students interested in participating in intramurals should contact him.

Doctor Richey stated that on the evenings of no intramural activity, Lamkin Gymnasium is open to all students for recreation from 6:30 to 9:30 o'clock. On Monday and Wednesday nights from 7 to 9 o'clock, co-educational swimming is open.

All students are encouraged to use the recreational facilities offered.

## Athlete of Month

Dave Remund, rugged Bearcat center, has been cited as Athlete of the Month during January by the MSC Athletic Department.

Named as runners-up to the Coon Rapids, Iowa, senior were Jerry Mason, 130-pound wrestler, and Frank Fisher, mainstay of the aquatic Bearcats.

"All three men are equally deserving of the award but . . . Remund has played perhaps the best basketball of his career during the past few weeks," commented Dr. Burton Richey, department head.

Against Springfield Monday night, the 6-6, 220-pound Remund potted 27 points. In the five preceding games, he scored an average of 21 points per game, including outputs of 26 against Cape Girardeau and 28 in the Rolla game. Fourth in league scoring, Remund outscored Cape's Keith Meystedt, who averages 26.2 counters a game, 20-6. The two-year starter cooled Meystedt, who ranks among national leaders with 18 rebounds a game, by outrebounding him, 21-6. Remund ranks third in league rebounding.

Coach Dick Buckridge calls

the dunker "about the most improved player in the MIAA this season. His improvement has been great and is a credit to Dave for gaining the confidence that an athlete must have to be good. We will certainly miss him next year."

Junior Jerry Mason, one of MSC's most consistent wrestling performers, holds an 8-0 record and championship of the 130-pound weight class at the 10-team Graceland Tournament. "The best-conditioned athlete on our squad," in the opinion of Coach Jerry Landwer, the 5-6 wrestler possesses exceptional endurance.

Coach Landwer also stated that the Chariton, Iowa product is the most improved wrestler and by far the most outstanding grappler. He trails only Captain Al Packer in team points, 37-33.

"No question about this young man," opined Ryland Milner, athletic director.

Letterman Frank Fisher owns or shares nine team or pool records. Against Park College this year, he broke his own pool and NWMSC record in the 200-yard freestyle with a time of 2:03. An outstanding performer and leader for three years, the Maryville senior also holds individual records in the 60-yard, 100-yard, and 50-yard freestyles.

## Grapplers Seek Win No. 43 In Home Meet With Simpson

Bearcat wrestlers will meet Simpson College wrestlers at 2:30 p. m. Saturday in Lamkin Gymnasium as they seek their 43rd consecutive victory.

Simpson ranked fifth in the 10-team Graceland tourney, which the 'Cats won; however, Coach Jerry Landwer rates them above William Jewell but does not expect them to be as tough as Warrensburg, who

fell to the Bearcats, 24-16, Jan. 8.

Four top wrestlers, Curtis, 123; Cannon, 137, a former Iowa State champion; Pfiffer, 115, and Denny, in the heavy weight division, head the Simpson squad.

Coach Landwer cited four Bearcat grapplers as men to watch in Saturday's matches. Arnold Thompson (7-0-1) and Al Packer (9-0) have been impressive in their last four outings. Also, James and Randall have improved strongly since their earlier matches.

Jerry Mason (8-0), sidelined in the recent Jewell meet because of a knee injury, is expected to be back in form for Saturday's contest.

Last Saturday the Bearcats blanked William Jewell, 35-0, to take their 42nd victory.

Jewell forfeited in the 123 lb. class, giving the victory to Tom Dawson. In the 130 lb. class, Harvey Hallum, MSC, decisioned Bill Hawkins, 7-0. Bill Adams decisioned the Cardinals' Bill Severens, 7-2.

MSC's Thompson, 145, pinned Rich Hall in 5:31, and Ron James, 152, decisioned Wayne Marrs, 8-5. Gary Randall, 160, decisioned Jewell's Paul Baumgart, 5-1, and Al Downing, 167, pinned Gregg Hagg of the Cards in 1:08.

Packer decisioned Dave Owens, 8-2, in the 177 lb. class, and Al Borkowski pinned Jewell's Dennis Dobbs in 8:01 in the Heavyweight division.

The Bearcats last home match will be Feb. 18 against the University of Missouri.

Coach Jerry Landwer and his team have drawn consistently large crowds at most of the home matches. During the 42 victory schedule the spectators have grown from a few hundred to several thousand at many of the contests.

### NEW OPPONENTS ON GRID

Two new opponents have been added to the Bearcat football schedule for next year. They are Drake University, Des Moines, and Ft. Hays, Kas., State College.
